KS International Announces Acquisition Of Project Management Services

Washington, DC - September 8, 2011. KS International, LLC ("KSI"), a DC Capital Partners, LLC portfolio company, announced today that it has acquired Project Management Services, Inc. ("PMSI"). Financial terms of the transaction were not disclosed.

PMSI is a specialized provider of engineering and construction management consulting services to both federal and state government agencies. Its capabilities include, value engineering, full life cycle cost estimating, security planning, risk analysis, claims analysis and energy consulting, and Leadership in Energy & Environmental Design ("LEED") consulting. The acquisition of PMSI will significantly enhance KSI's engineering and technical services capabilities and expand its market position.

Thomas J. Campbell, Chairman of KSI and President of DC Capital Partners, LLC said, "PMSI's workforce of talented engineers will significantly enhance KSI's capabilities in the areas of value engineering, design and construction management, and energy consulting. The acquisition of PMSI will enable us to provide our customers with a greater array of capabilities and services."

Doug Mitten, President and Founder of PMSI said, "KSI's platform of engineering, training, and specialized construction capabilities will allow PMSI to provide its services to a greater range of customers both domestically and internationally, while enhancing our overall set of offerings to new and existing clients. We are pleased to be joining the KSI team."

Robert "Tony" Grimes, CEO of KSI said, "PMSI will add additional differentiated capabilities to our engineering and construction operations and position us to offer our customers a full continuum of engineering solutions from design through construction."
