Overview

DC Capital Partners is a private equity investment firm headquartered in the nation's capital. The firm makes control equity investments in middle market companies that provide differentiated and innovative services and solutions in the Government Contracting and Engineering and Construction Services markets. DC Capital's investment strategy emphasizes certain sectors that it believes offer the most compelling growth opportunities for investment, including but not limited to: Intelligence, Information Technology, Security, Operations and Maintenance, and Engineering and Construction.

DC Capital creates value in its investments by taking an active role in establishing strategy and closely monitoring management's performance while remaining passive in management's tactical execution of that strategy. DC Capital's investment strategy is founded on three pillars – Domain Expertise, Market Focus, and Strategic Principles. These three pillars underlie the investment process, philosophy, and decision-making that has resulted in our consistent investment success; a process that is systematic, disciplined, and repeatable. The final pillar, Strategic Principles, is consistently followed throughout the entire investment process.
